

AKHIL ABOTHU (Consultant at Capgemini)

[+91 8919059351](tel:+918919059351) || abothuakhil@gmail.com || [LinkedIn Profile](#) || [GitHub Profile](#) || [Portfolio](#)

2017 B.Tech graduate in CSE , from Sai Spurthi Institute Of Technology (JNTU Hyderabad, TS)

Professional Summary (8.7 years experience)

- Senior Full Stack Developer with **8.7 years of experience** in designing, developing, and maintaining **scalable enterprise applications** using **Java, J2EE, Spring Boot, and Spring MVC**.
- Strong expertise in building **RESTful APIs and microservices-based architectures**, with hands-on experience in modern frontend technologies including **React, Angular, and Vue.js**.
- Proficient in working within **Agile (Scrum) environments**, contributing across the full software development lifecycle including **UI development, backend services, deployment, and production support**.
- Experience in application deployment and management using **JBoss (WildFly) and Apache Tomcat**, with a focus on performance, reliability, and maintainability.
- Demonstrated ability to **lead knowledge-sharing sessions, conduct technical workshops**, and collaborate effectively within cross-functional teams.

Technical Skills

Programming Languages: Java

Frontend Technologies: HTML5, CSS3, Bootstrap, JavaScript, JSON

Frontend Frameworks: Angular, React, Vue.js

Backend Technologies: Java (J2EE), Servlets, JSP

Backend Frameworks: Spring Boot, Spring MVC, Hibernate

API & Architecture: RESTful APIs, Microservices Architecture, JWT Authentication

Databases: MySQL

DevOps & Tools: Maven, Jenkins, Git, Postman

Application Servers: Apache Tomcat, JBoss (WildFly)

Development Tools / IDEs: IntelliJ IDEA, Eclipse, Visual Studio Code

Operating Systems: Linux, Windows

Code Quality & Security Tools: Checkmarx

AI Tools & Productivity: GitHub Copilot, Cursor, Google Antigravity

Other Skills: Agile (Scrum), CI/CD Concepts, Production Support

Professional Experience

Capgemini – Consultant (Apr 2021 – Present)

Client: General Electric (GE Aerospace & GE Vernova)

- **WAM – Access Management System (GE Aerospace) (Jan 2024 – Present | Java, Spring Boot, Angular, Node.js, MySQL)**
 - Designed and enhanced a **Role-Based Access Control (RBAC)** platform supporting **5,000+ enterprise users** with multi-level approval workflows
 - Led large-scale **Angular migration (v9 → v19)** using an incremental upgrade strategy, achieving **zero production downtime**
 - Upgraded **Spring Boot (2.6 → 3.x)** and **Node.js (16 → 22)**, improving security compliance and application performance
 - Developed and optimized **RESTful APIs**, reducing approval workflow latency through efficient backend query design
 - Drove **end-to-end delivery** from requirement analysis to UAT sign-off in an Agile environment
 - Leveraged **GitHub Copilot** for AI-assisted code generation, speeding up development and improving code quality across Angular and Spring Boot components
- **WAM – GE Vernova Migration (Oct 2023 – Jan 2024 | Java, Spring Boot, Angular, MySQL)**
 - Led **application fork and enterprise re-platforming** for GE Vernova following corporate split
 - Executed **data migration and cleanup**, aligning legacy GE data with new organizational structures
 - Implemented **workflow and approval hierarchy changes** specific to Vernova business processes

- Delivered production rollout with **zero critical post-release defects**
- **Travel & Fleet Applications (May 2022 – Oct 2023 | Java, Spring Boot, Angular, MySQL)**
 - Led a **module-level team**, managing task distribution, code reviews, and sprint deliveries
 - Built **scalable backend APIs and UI modules** supporting global workforce operations
 - Transformed business requirements into **modular, deployable components**
 - Provided **production support and system monitoring** ensuring high availability
- **GPIT – Global Payroll Input Tool (Jan 2022 – May 2022 | Java, Spring MVC, Maven, WildFly)**
 - Developed backend architecture using **Spring MVC layered design**
 - Migrated build system from **Ant** → **Maven**, improving dependency management
 - Modernized legacy system by converting **XML configs to annotation-based configuration**
 - Integrated external payroll APIs and resolved **security vulnerabilities (Checkmarx)**
- **CATBILL – Corporate Air Transport Billing System (Apr 2021 – Jan 2022 | Java, Spring Boot, React, MySQL)**
 - Led **full-stack modernization** from Spring MVC + JSP to **Spring Boot + React**
 - Designed backend services and dynamic UI for **billing dashboards and reporting**
 - Implemented **asynchronous processing (message queues)** for batch billing operations
 - Owned **end-to-end delivery**, including deployment and post-production support

GV Soft Solutions Pvt Ltd – Software Engineer (Jun 2018 – Feb 2021)

- **COCO – Competitions & Collaborations (Java, Spring MVC, Vue.js, MySQL, JWT)**
 - Developed **REST APIs with JWT authentication** and role-based access control
 - Implemented **OAuth2 social login integrations** (Google, Facebook, LinkedIn)
 - Built reusable **Vue.js components** and responsive UI
 - Maintained production systems with high availability

Wevio India Info Solutions Pvt Ltd – Software Engineer (Oct 2017 – May 2018)

- **MyCube – Customizable Safe-Selling Platform (Java, Spring MVC, JSP, MySQL)**
 - Developed backend services and JSP-based UI using **Spring and JPA**
 - Supported **production deployment and issue resolution** during platform launch

Achievements

- Awarded **Capgemini XtraMile Award (2022)** for outstanding performance and contribution to enterprise project delivery
- Recognized for leading **critical system migrations and zero-downtime upgrades** in production environments

Certifications

- **AWS Certified Cloud Practitioner** (Validation ID: BZQV9C31X2111JWZ)
- **Microsoft Azure Fundamentals (AZ-900)** (Certification ID: H985-9302)
- **Microsoft Technology Associate – Database Fundamentals** (Certification ID: F604-7349)
- **Cisco Networking Academy – IT Essentials**

Additional Activities

- Conducted **technical workshop on Python programming (3-day session)**
- Experience in **event organization and coordination** during academic tenure
